

KIT #1 – INCLINATIONS SHAWL (to knit)

Everyone we know loves Andrea Mowry's The Shift cowl and Nightshift shawl. We think you'll also have a strong inclination to knit her newest wrap – the Inclinations Shawl, which similarly weaves different color options into a big, textured hug of fabric. The shawl is knit flat, sideways, and increases into an asymmetrical triangle.

This pattern can be knit in up to six colors, but we're pairing it with two coordinating and contrasting balls of Noro Ito, a slubby, worsted-weight, 100% wool yarn dyed in the Japanese master's distinctive colorways— in fact, it's one of Noro's most colorful creations. A few possible combos are shown below, but we have lots of Ito in stock so feel free to choose your own (437yds/ball).

The kit includes a printed pattern and two balls of Noro. Stop by the shop or call us at 530-642-2270 to get your kit today!
